CONTENTS OF VOLUME 89

Volume 89 Nos. 1/2 May 1996

Announcement v

WILLIAM S. CURRIE, JAMES N. GALLOWAY and HERMAN H. SHUGART / Watershed Base-Cation Cycle Dynamics Modeled over forest Regrowth in a Central Appalachian Ecosystem 1–22

C. ELEJALDE, M. HERRANZ, F. ROMERO and F. LEGARDA / Correlations Between Soil Parameters and Radionuclide Contents in Sample from Biscay (Spain) 23–31

M. A. A. GADALLAH / Phytotoxic Effects of Industrial and Sewage Waste Waters on Growth, Chlorophyll Content, Transpiration Rate and Relative Water Content of Potted Sunflower Plants 33–47

VALERY BARCAN and ANNA SYLINA / The Appraisal of Snow Sampling for Environmental Pollution Valuation 49–65

M. SADIQ and I. ALAM / Arsenic Chemistry in a Groundwater Aquifer from the Eastern Province of Saudi Arabia 67–76

A. GHOSH BOBBA, RICK A. BOURBONNIERE, VIJAY P. SINGH and LARS BENGTSSON / Numerical Simulation Model of Fatty Acids in Lake Sediments 77–90

G. H. OMIDI, J. C. THOMAS and K. W. BROWN / Effect of Desiccation Cracking on the Hydraulic Conductivity of a Compacted Clay Liner 91–103

L. H. PARDO and C. T. DRISCOLL / Critical Loads for Nitrogen Deposition: Case Studies at two Northern Hardwood Forests 105–128

BO LINDHARDT, THOMAS H. CHRISTENSEN and LIZZI ANDERSEN / Volatilisation of Aromatic Hydrocarbons from Soil: Part I, Fluxes from Coal Tar Contaminated Surface Soils 129–146

MICHAEL STARR, CARL JOHAN WESTMAN and JOHANNA ALA-REINI / The Acid Buffer Capacity of Some Finnish Forest Soils: Results of Acid Addition Laboratory Experiments 147–157

MARIA PAPAPETROPOULOU and HARILAOS MOSCHOPOULOS / Detection of *Salmonella spp* in Estuarine Waters by Using Both the Conventional Culture and a Probe Technique 159–165

C. E. CATRICALA, W. B. BOWDEN, C. T. SMITH and W. H. McDOWELL / Chemical Characteristics of Leachate from Pulp and Paper Mill Residuals used to Reclaim a Sandy Soil 167–187

HARTMUT HEINRICHS, GERD BÖTTCHER, HANS-J. BRUMSACK and MARKUS POHLMANN / Squeezed Soil-Pore Solutes – A Comparison to Lysimeter Samples and Percolation Experiments 189–204

J. P. GUSTAFSSON / Response of Spodic B Horizons to Acid Precipitation in Northernmost Fennoscandia 205–220

Water, Air, and Soil Pollution **89**: 431–432, 1996.

CONTENTS OF VOLUME 89

Volume 89 Nos. 3/4 June 1996

P.A. SAUER and E.J. TYLER / Heavy Metal and Volatile Organic Chemical Removal and Treatment in On-Site Wastewater Infiltration Systems *I. Catch Basins and Septic Tanks* 221–232

MATS ÅSTRÖM and ALF BJÖRKLUND / Hydrogeochemistry of a Stream Draining Sulfide-Bearing Postglacial Sediments in Finland 233–246

R.V. GALIULIN and V.N. BASHKIN / Organochlorinated Compounds (PCBs and Insecticides) in Irrigated Agrolandscapes of Russia und Uzbekistan 247–266

BLANKA MAŇKOVSKÁ / Mercury Concentrations in Forest Trees from Slovakia 267–275

SELMA E. GUIGARD, WARREN H. STIVER and RICHARD G. ZYTNER / Retention Capacities of Immiscible Chemicals in Unsaturated Soils 277–289

ANNE KUEBLER O'BRIEN and KEITH N. ESHLEMAN / Episodic Acidification of a Coastal Plain Stream in Virginia 291–316

P.H. MASSCHELEYN, F.M. TACK and M.G. VERLOO / Feasibility of a Counter-Current Extraction Procedure for the Removal of Heavy Metals from Contaminated Soils 317–335

P.A. SAUER and E.J. TYLER / Heavy Metal and Volatile Organic Chemical Removal and Treatment in On-Site Wastewater Systems *II. Drainfields in Loamy Sand and Silt Loam Soils* 337–350

G. OBERG, I. BÖRJESSON and B. SAMUELSSON / Net Change in Organically Bound Halogens in Relation to Soil pH 351–361

F. BERGMANN and B. HOSIUS / Effects of Heavy-Metal Polluted Soils on the Genetic Structure of Norway Spruce Seedling Populations 363–373

KJELL B. ESSER / Reference Concentrations for Heavy Metals in Mineral Soils, Oat, and Orchard Grass (*Dáctylis Glomeráta) from Three Agricultural Regions in Norway* 375–397

CLÁUDIA CARVALHINHO WINDMÖLLER, ROLF-DIETER WILKEN and WILSON DE FIGUEIREDO JARDIM / Mercury Speciation in Contaminated Soils by Thermal Release Analysis 399–416

DANUTA BODZEK, BEATA JANOSZKA and LIDIA WARZECHA / The Analysis of PAHs Nitrogen Derivatives in the Sewage Sludges of Upper Silesia, Poland 417–427

Information for Authors 429–430

Contents of Volume 89 431–432
